You are invited to join us again for our 2nd Annual BioProducts Cluster Workshop this March 30 and 31 in Toronto.

We are excited about this year's theme - "Cellulosic Biorefining - from the farm to the customer" and the opportunities for new supply of products from cellulosic sugars and material derived from agricultural biomass available to the chemicals and material markets.

In addition, we hope to listen to your feedback and input to the BioProducts Cluster's future priorities.

Registration to participate is open on our website at [www.BInCanada.ca](http://www.BInCanada.ca)

We look forward to seeing you in Toronto,

Bioindustrial Innovation Canada
